Adult Skyrunner Pivoting Footplate Information

**THE PIVOTING FOOTPLATE IS AN EXCLUSIVE FEATURE TO
*SKYRUNNERS***

This allows for the natural motion movement when you walk or run, in short, allows for the natural ark in which we move our legs.

WITH FOOTPLATE LOCKED (Quick Release Pin **not** Removed)

This mode is used for **Jumping** and can also be used for walking or running. It should also be in this mode when **learning**.

WITH FOOTPLATE UNLOCKED (Quick Release Pin **Removed**)

Refer to Fig 1 and Fig 2, this mode allows for easier walking and running, **but must not be used for Jumping**.

SKYRUNNERS can be used in any of these modes dependent upon what suits the user
